## EXPERIENCE

Raymond James Financial | DevOps and Cloud Platform Engineering Intern

May 2022 – July 2022

- Built **CI/CD Pipelines** that utilized microservices and Chef code to produce adhoc environments based on **application archetypes (EAP, Springboot, .NET Core, HTTPD)**
- Contributed to a wiki page detailing the creation process behind constructing pipelines
- Utilized tools such as **Splunk** and **DataDog** to identify issues in **Jenkins** builds
- Worked within an **Agile/Scrum** team format to drive releases forward in a timely manner

Publix Super Markets | Grocery Clerk

March 2021 - Present

- Respond to customer needs, providing product information, aisle locations, inventory checks, and price verifications
- Unload 6 daily trucks for dry grocery, dairy, frozen, bakery, and deli departments and more frequent trucks during holiday seasons
- Ensured that product is within date and rotated and display product according to the appropriate planogram

## PROJECTS

*Appletini.dev*

- Developed an academic resume and blogging website to highlight personal portfolio and experience using a text editor and a static web builder

*Early Education Robot*

- Coordinated a team as a **Project Manager** to develop a robot using **Arduino** to introduce K-12 students to basic STEM concepts

*Movie Database*

- Created a thorough **database** of movies in **SQL** connecting tables including movies with year of release, main characters, production crews, and gross box office earnings
